

# musica sequenza

Baroque Ensemble Musica Sequenza was founded by Burak Özdemir at The Juilliard School New York in 2008 and is based in Berlin since 2011. The ensemble is dedicated to innovation in baroque music and the development of an inter-cultural artistic movement with musicians, dancers, choreographers, visual artists, architects, designers and filmmakers from all around the world. To date they have created over 40 productions worldwide. Musica Sequenza performs on 17th century period instruments and works in an international artistic network with global partners such as opera houses, festivals, concert halls, municipal theaters, art foundations

and museums. The ensemble presents performances with a repertoire from Renaissance to the contemporary composers. Musica Sequenza participates in today's global culture scene with inter-disciplinary projects with baroque music, new music, modern dance, conceptual performance and experimental music theater.
